These warranties specify that the finish will not wear through to the wood for the period specified by the individual warranty or for as long as the original purchaser owns the floor, whichever is less.

MATERIAL WARRANTY

Mullican Flooring warrants that the products have been manufactured in compliance with the grading rules of Mullican Flooring, and will be free from manufacturing defects for as long as the original purchaser owns the floor. Manufacturing defects

do not include natural wood characteristics such as mineral streaks, knots, grain variations, normal minor differences between color of samples and the color of installed floors, color variations from board to board, or minor width variation. Due to the nature of wide width plank (3" and wider), some minor width variation is to be expected and is not considered a defect. These are all normal characteristics and are not defects.
